## Press Statement

The Political Revolution and 50501 Movement

For Immediate Release

February 5<sup>th</sup>, 2025

### 50501 Movement:

Our coalition of grassroots organizers is committed to addressing the urgent need for unity, justice, and positive change across the United States. We are a diverse and dynamic group partnering with Political Revolution and working to collaborate with other established organizations. We remain an independent collective, embodying the collective unrest of the American population at the local level.

Donald Trump and his administration needs to address the American people, own up to his lies, and acknowledge the harm caused by his administration. Our coalition calls for immediate actions to rectify the injustices perpetuated by current leadership and to restore integrity and fairness to our political system. We demand transparency, accountability, and the prioritization of human rights and equality. Our requests include the resignation or removal of Donald J. Trump from the presidency, thorough investigations into his appointees, scrutiny of Elon Musk's governmental role, the repeal of oppressive executive orders, and the enforcement of robust laws against hate speech. We also advocate for the reinstatement of diversity, equity, and inclusion frameworks to ensure that all citizens are treated with dignity and respect.

To those concerned with legitimacy, this movement has been organized over the past ten days by average Americans just like you. While we wish we had more time to gather resources and the support of established groups, the situation in our country requires a fast response, and we have worked tirelessly to make our voices heard. We encourage you to join us in this movement, whether it is through reaching out to your

representatives, showing up on the field to protest, or simply talking to your neighbors and spreading the word that these are not normal times. Our goal is to unite the American people against our common enemy: the Trump administration, anyone involved in dismantling our democracy, and anyone who wishes to divide us by our differences instead of unite us by what makes us American. This is only the first step, and we intend to keep fighting for our rights until democracy is restored.

## Requests:

- For Donald J. Trump to step down or be removed from the presidency through impeachment.
- Conduct mass investigations into politicians appointed by Donald J. Trump.
- Investigate Elon Musk's role within the US government and take appropriate action if any federal or state laws are found to be violated.
- Overturn or rescind executive orders that infringe on citizen and human rights.
- Strengthen laws on hate speech, including banning displays of Nazi propaganda or salutes.
- Reinstate diversity, equity, and inclusion (DEI) frameworks to promote better conditions for all citizens.

## The Political Revolution

The Political Revolution, an organization founded in 2016 following the conclusion of Bernie Sanders' presidential campaign, proudly continues its mission to support progressive grassroots candidates and movements across the nation.

As an all-volunteer group and PAC, The Political Revolution operates without paid staff, driven purely by the dedication and passion of its members. Our mission is to find,

endorse, and support progressive grassroots candidates who are committed to bringing about substantial and positive change in their communities.

In addition to our work with candidates, we actively support other grassroots movements that align with our core values of social justice, economic equality, and environmental sustainability. Through our collective efforts, we aim to amplify the voices of those often unheard and to foster a more inclusive and equitable society.

We invite all those who share our vision to join us in this ongoing fight for a better future. Together, we can make a difference by empowering grassroots leaders and championing the causes that matter most to the people.
